Primary Care, Powered by Relationships

We are a **team-based primary care** clinic serving Medicare patients. We go **above and beyond** to provide our patients with the care they need, **when and where they need it most.**

What makes Hopscotch different from other providers?

Hopscotch offers simple, joyful, and connected care. Our care team spends real time with our patients and helps connect the dots in a complicated system. We provide care beyond the clinic walls, helping with paperwork, setting up transportation, finding affordable medication, and so much more.

Primary care, the way it was meant to be:

- More time with your providers
- A full care team to support you
- Personalized treatment plans
- Support navigating insurance and benefits
- Help coordinating specialty care
- Access to care all day, every day
